Power-user For PowerPoint And Excel 1.6.492.0 Key

Power-user for PowerPoint offers features like Focused View, which lets you view both your agenda and your content in the same view. The agenda shows what you're planning to do, while your slides show the content. You can also view all of your presentation in one shot. You can create a new presentation using templates, icons, charts or editable maps. Power-user for PowerPoint and Excel also offers a feature that lets you create a new PowerPoint presentation with a single mouse click, and add new agenda pages to existing presentations. This feature is a great time-saver! You can view the list of all the objects in the power-user for PowerPoint in the sidebar on the right side of the power-user screen. Clicking on them will let you select which ones you want to add to your presentation. Power-user for PowerPoint and Excel has some of the most powerful features that include Font-Sizing-Button, which lets you customize all the font sizes in your PowerPoint. You can also add any font that you want to your presentation. The Font-Sizing-Button also lets you change the size of the font in the text box so that you can select any size of font to match the format of your words. Power-user lets you add Unifying Keys to any of your slide or chart objects (including shapes, data fields, etc.). This lets you create a customized Shortcut Button that will bring up your relevant object in one click. Most of us struggle to create compelling Excel or Powerpoint slides on a regular basis. I often wonder: What do you do that makes your presentations so compelling? You guessed right. Without any extra help, the Power-user add-in will help you create compelling, attractive, interactive and engaging Powerpoint and Excel slides.
